

Real World Problem Scenario

Scenario:	Professional's Request
Business:	Memorial Health System
Business Participant:	Angie Tucker - Medical Librarian
Career Cluster(s):	Arts, A/V Technology and Communications, Information Technology
Grade Level:	6-12
Standards & Skills:	Rl.6.7 Integrate information presented in different media or formats as well as in words to develop a coherent understanding of a topic or issue W.7.2 Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through selection, organization and analysis of relevant content

Problem Description:

A health professional from a specific department of the hospital contacts the medical librarian asking for the latest information relating to a specific condition

Things to be considered or defined for the solution:

- Where do you look for health information?
- How do you know if the information is reliable?
- Which health department gets priority?
- How will the librarian obtain the materials needed for research?
- Is there more information needed to solve this problem scenario?
